

SWATCH GUIDE

LF STAINS - COMPLIANT WATER STAINS - CLASSIQUE STAINS

Thank's for visiting fcsnooker's wood finishes, lacquers and polishes page on the fcsnooker company website.

Please view the wood colours and finishes shown below on the colour charts and identify the most suitable colour preferred for finishing your chosen table product.

Please take note of the product code that relates to your preferred lacquer, polish or woodstain and then communicate the code and type of stain when discussing your table requirements.

LF STAINS
A range of fast drying alcohol-based stains suitable for hand, spray or dip application. The standard range consists of popular primary colours and a selection of the most widely used wood colours. Formulated to provide an excellent definition and depth of colour. This range is also suitable for tinting. fcsnooker Precatalyst and Acid Catalyst lacquers up to a maximum of 5% by volume (AC's should be catalysed prior to tinting). fcsnooker provides a bespoke colour matching service.

COMPLIANT WATER STAINS
A range of water-based stains suitable for hand, spray or dip application. The standard range consists of popular primary colours and a selection of the most widely used wood colours. A range formulated on organic metal-complex dyestuffs dissolved in water, which comply with the VOC requirements of Clause 19 of the Secretary of States Guidance Note for Wood Coating Processes PG6/33. fcsnooker provides a bespoke colour matching service.

CLASSIQUE STAINS
A range of fast drying solvent-based stains suitable for hand, spray or dip application. The standard range consists of a selection of the most widely used wood colours. Formulated to provide excellent definition and depth of colour. This range is also suitable for tinting. fcsnooker Precatalyst lacquers up to a maximum of 5% by volume. 134/ Stains are designed for spray and wipe applications and 135/ Stains are designed for spray and leave applications. fcsnooker provides a bespoke colour matching service.

Due to the technical limitations of the print process, these colour swatches should serve as a guide only. We accept no responsibility for colour variation, and advise clients to consult the product's data sheet prior to use. fcsnooker products are intended for professional use only.
